STATUS OF THE APPLICATION

1. This Office action is in response to the Amendment and Remarks filed on 7 September 2011.
2. The objections to the claims are withdrawn in view of Applicants' amendments to the claims.
3. The rejections of record under 35 U.S.C. § 112, second paragraph, are withdrawn in view of Applicants' amendments to the claims.
4. The rejection of claims 10-12 are rejected under 35 U.S.C. § 112, first paragraph, is withdrawn in view of Applicants' response.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. § 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
6. Claim 26 is rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

At line 2, the phrase "comprising corn event MON88017" renders the claim indefinite because it is unclear if this phrase refers to the claimed composition or if it refers back to the corn plant, seed or parts thereof of claim 25. Hence, the metes and bounds of the claim are unclear.

7. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

8. Claims 5, 14 and 34-36 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Applicants claim a transgenic glyphosate tolerant corn plant comprising SEQ ID NO: 1 and 2; and further comprising SEQ ID NO: 3 or 4, or both SEQ ID NO: 3 and 4.

Applicants describe a transgenic glyphosate tolerant plant comprising event MON898017 produced by random transformation. Applicants describe SEQ ID NO: 1 and 2 as being 20mer nucleotide sequences at the left and right borders of said event; and SEQ ID NO: 3 as comprising corn genomic DNA, SEQ ID NO: 1 and part of the rice actin 1 promoter; and SEQ ID NO: 4 as comprising part of the Hsp17 terminator, SEQ ID NO: 2 and corn genomic DNA (see Figure 2).

Applicants do not describe any other transgenic glyphosate tolerant corn plant comprising SEQ ID NO: 1, 2, 3 or 4, or combinations thereof.

Hence, it is unclear that Applicants were in possession of the invention as broadly claimed.

Claim Rejections - 35 USC § 103

9. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

10. Claim 26 is rejected under 35 U.S.C. 103(a) as being unpatentable over Strop *et al* (U.S. Patent 4,808,426).

The instant claim is found to be indefinite because the metes and bounds of the claim are unclear. For the purposes of the instant rejection, the claim is read as the claimed composition does not require corn event MON88017.

Strop *et al* teach a method of making a commodity product composition comprising corn oil at claim 23.

Strop *et al* does not teach using a corn plant part comprising corn event MON88017.

The instant claim would have been *prima facie* obvious to one of ordinary skill in the art at the time of the instant invention because a commodity product composition comprising corn oil would have been obvious. The instant claim does not appear to set forth a non-obvious structure. Given the teachings of Strop *et al*, one of ordinary skill in the art would have had a reasonable expectation of success.

Conclusion

11. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

12. Claims 9-12, 24, 25 and 27-33 are allowed.
13. Claims 5, 14, 26 and 34-36 are rejected.
